

Elf 2021 Scenic Design

Christmas Illustrations

- Very little blank space
- Nostalgia/Cozy feeling
- Bright colors where they're supposed to be (lights, shading, etc.)

Forced Perspective

- Greater in size from a distance.
- Use of width while getting closer to make the illusion of larger/taller size.

Transformations through Architecture and Decor

Difference of Shapes and Structure

- Rounded/fun shapes, bright colors for Christmas time
- Straight/angular shapes, dull colors for real world
